

# COLOR WHEEL

## ACTIVITY

Kids are naturally curious about the world around them, and being outside stimulates their senses in different ways than being indoors – they can see, hear, smell, and touch nature’s elements to activate their curiosity and learn first-hand about their environment.

Help your kids discover how colorful their world is with an activity that gets them outside, observing, and making connections!

### WHAT YOU NEED:

- Crayons, markers, kid-friendly paints, or colored pencils
- Scissors
- Paper clips, clothes pins, or tape

### WHAT TO DO

- 1 First, you'll need to color your color wheel. It doesn't matter what colors your kids choose or where they put each color on the wheel. Let them get creative!
- 2 Next, help your kids cut out their wheel.
- 3 Then, head outside!
- 4 Look for things outside that match the colors on the wheel.
- 5 Attach what you find to the wheel at the corresponding color.
