

Color Wheel

SCAVENGER HUNT

DIRECTIONS:

1. Get your favorite crayons or markers out and fill in this color wheel with the right colors.
2. Go outside and look for objects that match those colors.
3. When you find an object, set it on the matching section of the color wheel. See how long it takes you to find all the colors!

TIPS FOR PARENTS

If your child is just beginning to learn the names of colors, ask them simple either/or questions ("Is this flower red or yellow?") to help them decide where to put the object on the color wheel.

Nature has all the colors of the rainbow! Let's go on a scavenger hunt to **FIND THEM ALL!**
