# EXPLORE SUMMER

What does summer feel like? Let's put on some sunscreen and head outside with Chuck & Pepper to find out!

Help your kids explore the outdoors this summer with these simple questions and activities.

## WHAT DO YOU FEEL?

- What does it feel like when you are standing in the sun? Does it feel different when you move into the shade?
- How does the soil in your garden feel? Is it warmer or cooler the further you dig down?
- Do you think the wind feels warm or does it cool you down? What else helps you cool down when you are hot?
- What does the water from the hose feel like when it's coming out fast? Does it feel different when it comes out slow?
- If you take off your shoes and run as fast as you can, what does the grass feel like under your feet? What does running in the dirt feel like?
