

FRIENDSHIP CARDS

Friends come in all shapes, sizes, colors, and species! But there's one thing all friends have in common: when friends are together, life just feels better.

These friendship cards will help your kids let their friends know they are loved and appreciated!

Just download the next page, print, cut the cards out, color or decorate, and help your kids write their names. You also have the opportunity to talk with your kids about their friends, and ask questions about what they like to do together. You will learn a little about them while your kids practice talking about their feelings.

Everything is more fun when we do it together!

I'm happy we're friends.

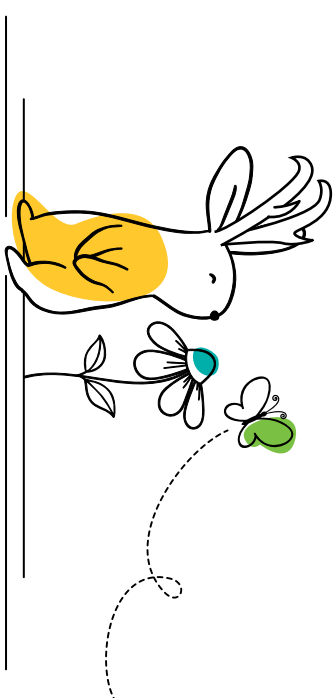

My favorite days are when we play!

I'm happy we're friends.
